

The foundations are in!

PALM DESERT

Thanks to The Home Depot Foundation, the City of Palm Desert, Holt Architecture and a number of other companies who have donated time and materials, the concrete slabs for the two home sites for vets are ready to go.

Volunteers from The Home Depot Foundation will be on hand on September 16 to stand the framing for both homes and install drought-tolerant landscaping for four neighboring homes.

Thanks also to Whole Foods Market in Palm Desert who will provide lunch for the HFH staff and other support volunteers. <https://www.facebook.com/wfmpalmdesert>
